SUMMARY

Passionate and detail-oriented programmer with hands-on experience in Salesforce Administration, Java, and front-end Technologies. Strong team player with leadership ability and a drive for continuous learning. Skilled in automating business processes. Seeking to deliver high-quality software solutions in a dynamic environment.

SKILLS

Salesforce : Salesforce Administrator, Salesforce Classic, Sales Cloud

Programming Language: Java

Database: Oracle SQL

Web Technologies: HTML, CSS, JavaScript

Tools & Platforms: Git, GitHub, VS Code, Eclipse, Force.com

Soft Skills: Fast Learner, Team Management

PROJECTS

MediFlow CRM (Salesforce Admin)

- Built a hospital management app in Salesforce to manage patients, doctors, and appointments.
- Created custom objects, fields, and page layouts to reflect real-world workflows.
- Designed dashboards and reports for real-time view of hospitals income and doctors assigned to patients with their respective appointment fees and date.
- Implemented secure, role-based access using profiles, permission sets, and sharing rules.

Notes Application (Html,Css,Javascript)

- Implemented full CRUD operations (Create, Read, Update, Delete).
- Used localStorage for data persistence in the browser.
- Built a responsive, mobile-first layout with sidebar toggle.
- Enabled real-time note filtering and search functionality.
